

Maya Chen

Frontend engineer building accessible product experiences

maya.chen@example.test | +1 415 555 0138 | San Francisco, CA

SUMMARY

Frontend engineer focused on clear information architecture, accessible interaction patterns, and reliable delivery with React and TypeScript.

SELECTED EVIDENCE

Atlas study planner

- Designed the information architecture for a React and TypeScript study planner.
- Implemented keyboard navigation and documented the testing approach.
- Translated source-backed project notes into a concise, reviewable narrative.

SKILLS

TypeScript, React, Next.js, accessibility, testing, product collaboration

EDUCATION

B.S. Computer Science - University of Washington - 2024
